

Offline Field Health Imagery

Take your field maps to-go even without an internet connection using our new, downloadable Field Health Imagery and Color Maps.

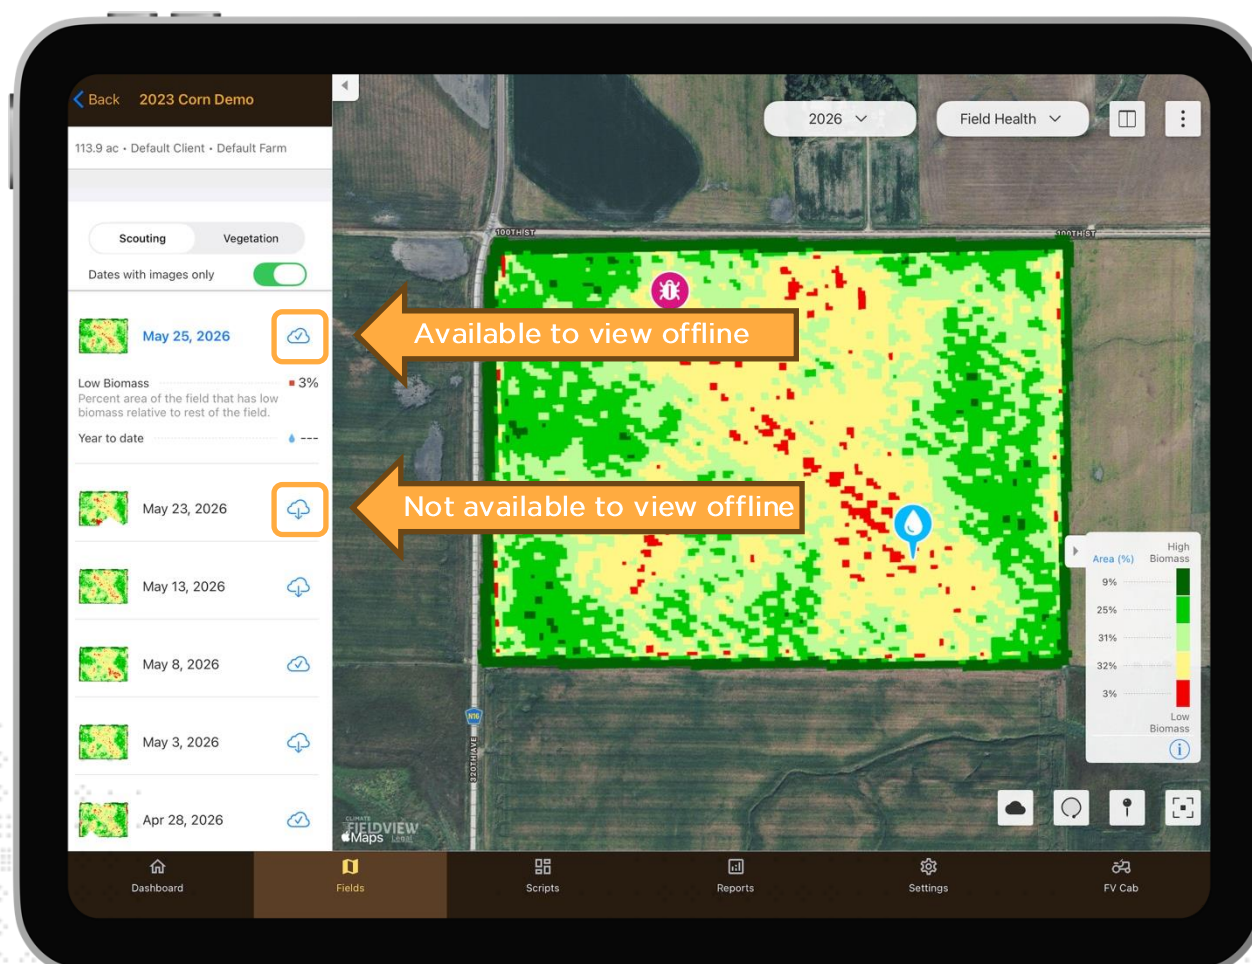

This new functionality, released in FieldView™ iOS™, will allow users to select and "save" scouting and vegetation maps, so that they can visualize them once in their fields, allowing users to monitor crop development and make real-time notes without requiring an internet connection.

1. From the Fields tab – navigate to the field of choice, choose the image you want to download and tap the icon.
2. Once the image is downloaded, the icon will appear as follows.

Note: Scouting and Vegetation images must be downloaded separately.

For questions, please contact FieldView Support at 1.888.924.7475 or support@climate.com.
