

“How can I help a farmer get started with FieldView™?”

Pre-Work Checklist

For this demonstration to be successful, you will need to complete the following:

- Identify equipment model numbers
- Display model numbers
- Update iPad® device to latest iOS™ version
- Load historical data on data drive

Key Discussion Points

How can manually loading data guide farm decisions using FieldView™?

What new analysis can I gain from map layers in FieldView™?

Quick Steps

- + **STEP 1** Create a FieldView™ account at climate.com (you will need an active email address).
- + **STEP 2** Download both the FieldView™ app and FieldView™ Cab app.  
- + **STEP 3** Map your fields from the FieldView™ app or climate.com.
 - From the FieldView™ app:
 1. Click **Add Field** (from the Fields tab)
 2. Tap on field common land unit boundary (green outline)
 - From climate.com:
 1. Select **Manage Fields**
 2. Click **+ Add Field**
- + **STEP 4** Upload historical data using the **Data Inbox** on climate.com.
- + **STEP 5** Share your account with your farming network partners via climate.com. (**Settings** > **Sharing** > **Share**).
- + **STEP 6** Log in to FieldView™ Cab app and preload equipment, applications, hybrids, etc.

Next Step

Don't stop here! Review your data in the FieldView™ app or online and use Yield Analysis to evaluate yield performance on a new level.
