

Integration Guide

Importing your data from SoilOptix® into Climate FieldView™

Step 1 Navigate to soiloptix.ncinnovation.ca

Step 2 Login with your **SoilOptix®** account credentials
NOTE: To set up a SoilOptix® account, please contact either SoilOptix® data team at data@soiloptix.com or retrieve through your SoilOptix® provider

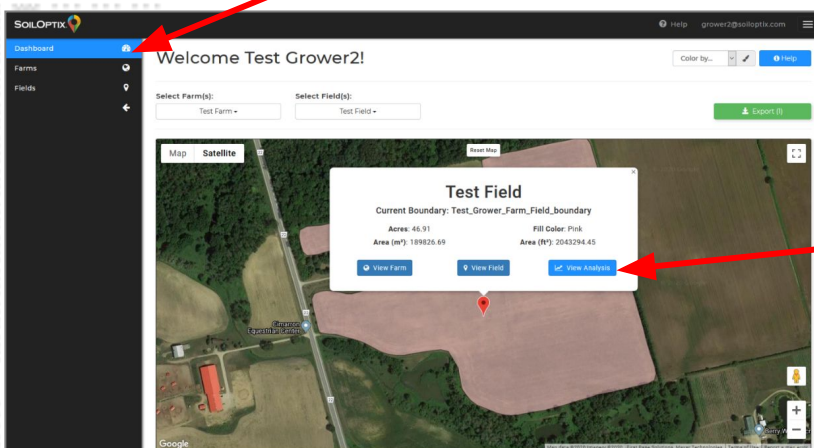

Step 3 General account info

Click on your email (red circle) to view your account settings and profile information.

Here you can change:

- Your contact information
- Your password
- The analysis view window - you choose whether FieldView can access your data

Step 4 Navigate to the field you would like to export
Click 'Dashboard' on the left panel

Step 5

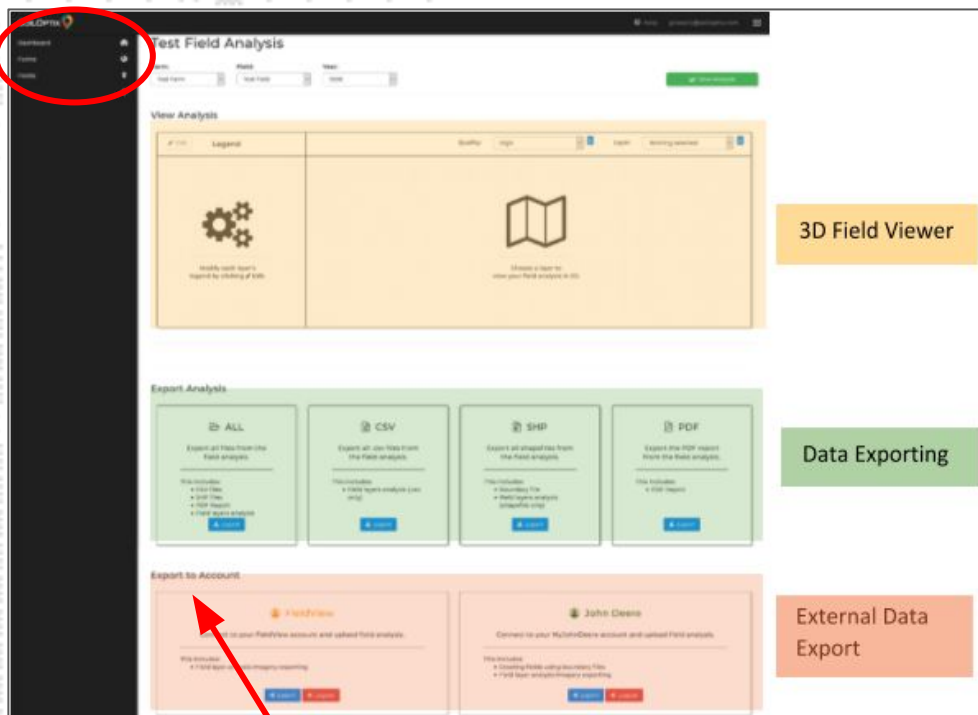

Once in 'Dashboard' click the  on the map for more field information.

Then click the button 

Importing your data from SoilOptix® into Climate FieldView™

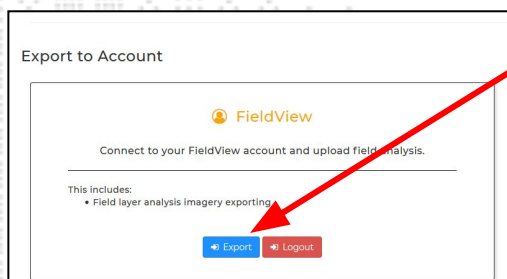

View Analysis

When in View Analysis, you can select from the Farm, Field and Year dropdowns

Step 6

Under Export to Account, click Export underneath the Climate FieldView option

If this is the first time exporting to FieldView. You will be redirected to the FieldView login page to input your FieldView account credentials. *This is only done once.*

Once you login, you will be redirected back to the SoilOptix® portal where you will re-click 'Export' in the FieldView box.

Importing your data from SoilOptix® into Climate FieldView™

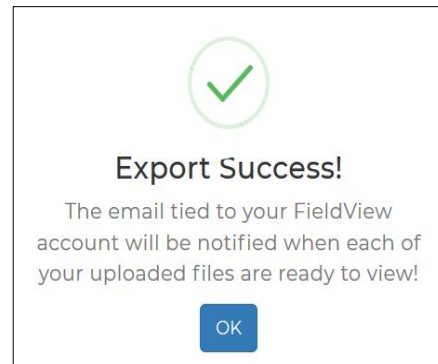

Before the field is exported, you'll have an option of which layers to export

Select	Nutrient Layer
<input checked="" type="checkbox"/>	B
<input checked="" type="checkbox"/>	Ca
<input checked="" type="checkbox"/>	Cec
<input checked="" type="checkbox"/>	P
<input checked="" type="checkbox"/>	Zn
<input checked="" type="checkbox"/>	Ph
<input checked="" type="checkbox"/>	Cu
<input checked="" type="checkbox"/>	Fe
<input checked="" type="checkbox"/>	K
<input checked="" type="checkbox"/>	Mg
<input checked="" type="checkbox"/>	Mn
<input checked="" type="checkbox"/>	Om

Export Selected

Upon completion of the export, you will get a notification

Viewing data from SoilOptix® in your Climate FieldView™ account

Viewing data on your Desktop

Navigate to climate.com

Click on the field you want to view

Click Field Summary dropdown

- Select **In Season** > **Other imagery**

Your SoilOptix® data will appear and you can begin using your data to create management zones for seeding/planting or fertilizing using the **Manual Zone** creation

Viewing data from SoilOptix® in your Climate FieldView™ account

Viewing data on your IOS device

Navigate to the FieldView app

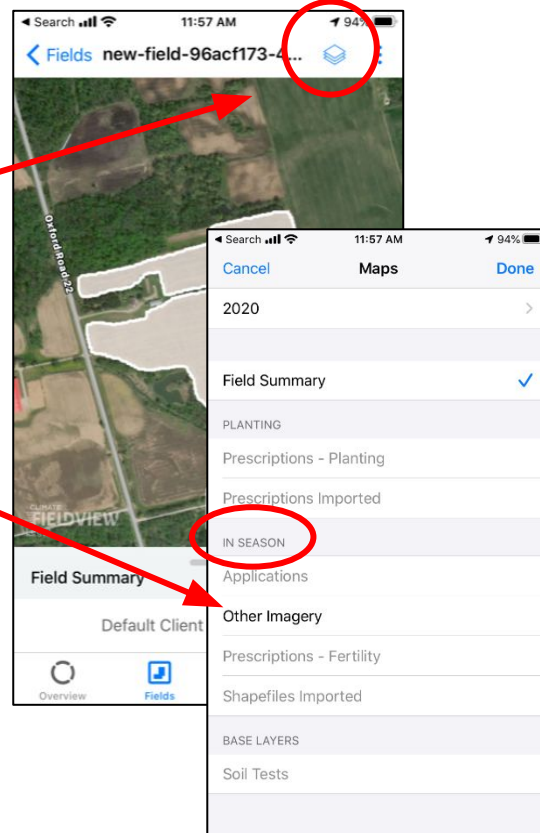

Click on the field you want to view

Click the Layers Icon (in red)

- Select **In Season** > **Other imagery**

Select the layer you wish to view from the list below 'Partner Imagery'

Switching between FieldView Accounts

- Navigate back to the SoilOptix® Analysis page and click **Logout**.
- Login again with the new FieldView account credentials.

Final Notes:

- All SoilOptix® data must be uploaded through the SoilOptix® portal. No manual upload of data will work.
- In viewing SoilOptix® through FieldView, legend values do not show. This is for both Desktop and IOS versions.
